~~Good Laboratory Practice Regulations Fourth Edition Drugs ...~~

In the experimental research arena, good laboratory practice or GLP is a quality system of management controls for research laboratories and organizations to ensure the uniformity, consistency, reliability, reproducibility, quality, and integrity of products in development for human or animal health through non-clinical safety tests; from physio-chemical properties through acute to chronic toxicity tests. GLP was first introduced in New Zealand and Denmark in 1972, and later in the US in 1978 in

~~good laboratory practice regulations fourth edition drugs ...~~

Good Laboratory Practice (GLP) regulations are applied to non-clinical safety of study items contained in pharmaceutical products, cosmetic products, veterinary drugs, devices as well as food additives. The purpose of testing these items is to obtain information on their safety with respect to human health and environment.
