~~Energy Efficiency - Green Energy~~
What is the Green Homes Grant? On Tuesday 7th July the Government announced a new £2 billion scheme. The scheme helps homeowners across England improve the energy efficiency of their homes. Customers will be able to apply for the Green Homes Grant in September 2020 and it will run until March 2021.

~~Green Homes Grant | EDF~~
Energy efficiency and renewable energy are often considered the twin pillars of sustainable energy. [35] [36] The International Energy Agency estimates that 40% of greenhouse gas emission reductions needed for the Paris agreement can be achieved by increasing energy efficiency. [37]

~~Sustainable energy - Wikipedia~~
Under the Green Homes Grant Scheme, homeowners and landlords in England will be able to apply for vouchers worth up to two thirds of the cost of upgrading the energy efficiency of their home. For most people, the maximum contribution will be £5,000. Households on low incomes will be eligible for up to 100% funding, up to a maximum of £10,000.

~~Green Homes Grant scheme - Energy Saving Trust~~
Energy efficiency and renewable energy are considered as main elements in sustainable energy policy. Both strategies must be developed concurrently in order to stabilize and reduce carbon dioxide emissions. Efficient energy use is essential to slowing the energy demand growth so that rising clean energy supplies can make deep cuts in fossil fuel use. If energy use grows too rapidly, renewable energy development will chase a receding target.

~~Efficient energy use - Wikipedia~~
Jeff Schub, executive director of the Coalition for Green Capital, says his group's decade of work in this area demonstrates that the largest barriers to wider adoption of clean energy and...
