Most music has melodies and improvised solos that are closely related to the notes in the chords. For instance, if the chord being played is an F maj7 chord, at that moment the melody will most likely use tones that exist in the chord: F, A, C and E.. While many other tones can be used to “ fill in space ” , to create tension, or increase

But while beginner and intermediate guitarists can master blues improvisation relatively easily — the minor pentatonic scale works perfectly over all three chords — ii-V-I sequences present a tougher challenge. Technically, it ' s possible to use just one scale over the three chords:

Download Ebook Guitar Chord Scale Improvization

the Ionian (major) scale of the tonic chord. However, the major scale gives the absolute opposite of a jazzy feel to your solo licks and sounds rote and tired when played over tunes with multiple ii-V-I changes.
