"Will Norman's Nabokov, History and the Texture of Time is a sustained demonstration of the importance of disobeying orders. Treating some of Nabokov's most polemical statements with the informed scepticism other critics apply to instructions by Humbert, Norman demonstrates how deeply interested Nabokov is in schools of thought he claims to disdain and ignore."

The illusion of texture is no less important to our experience of works of art. Dutch still life paintings are justly famous for their careful, illusionistic replication of objects. The smooth silver plates and glass goblet of Pieter Claesz's Still Life seem to tease us, as do the rougher cookies and breads, and the crumbly pie.

Texture mapping is a method for defining high frequency detail, surface texture, or color information on a computer-generated graphic or 3D model. The original technique was pioneered by Edwin Catmull in 1974. Texture mapping originally referred to diffuse mapping, a method that simply mapped pixels from a texture to a 3D surface. In recent decades, the advent of multi-pass rendering, multitexturing, mipmaps, and more complex mappings such as height mapping, bump mapping, normal mapping, displac
