Human-centered design (HCD) [also Human-centred design, as used in ISO standards] is an approach to problem solving, commonly used in design and management frameworks that develops solutions to problems by involving the human perspective in all steps of the problem-solving process. Human involvement typically takes place in observing the problem within context, brainstorming, conceptualizing ...

IDEO.org launched as a 501(c)(3) from the
global design and innovation firm IDEO in
2011, and like IDEO, we practice human-
centered design. In addition to actually
making things to improve the lives of people
living in poverty, we're working to get the
social sector at large to take a human-
centered approach to problem solving too.
