Human Evolution and Christian Ethics

The notion of emergent complexity can help Christian ethics identify what is valuable in evolutionary analyses of human behavior while avoiding its objectionable features. The remainder of this talk will consider three topics that are important for Christian ethics and have been examined in considerable detail by evolutionists. These

Human Evolution and Christian Ethics by Stephen J. Pope

Christian ethics ought to incorporate evolutionary approaches to human nature to the extent that they provide helpful knowledge of the conditions of human flourishing, both collective and individual. From this perspective, a strong affirmation of human dignity and appreciation for the theological virtues of faith, hope and charity is consistent with a revised account of natural law and the cardinal virtues.
