Welcome to National Infrastructure Planning. Here you can find out about proposed Nationally Significant Infrastructure Projects (NSIPs) within England and Wales. This site is managed by the Planning Inspectorate, the government agency responsible for examining applications for NSIPs. More about the Planning Inspectorate's remit

National Infrastructure Planning

a) Planning: In the context of the large, dispersed and unplanned cities of the global south, planning for resilience becomes a matter of collaborative initiative involving a host of actors and sentient infrastructures. This requires mobilising plural and interdisciplinary knowledges, both for understanding and for acting in intelligent ways.
