~~Inside Straight - Definition of Inside Straight by Merriam -~~
An inside straight draw is a type of straight draw, more commonly referred to as an open ended straight draw. We make an inside straight draw when we have four cards in rank order, allowing us to complete a straight at either end. For example, we hold 6789 in our hand and can make a straight either by hitting the Five or Ten. November 24 2018

Inside Straight draw. Noun. Four cards to a straight, where the missing card would be in the middle of the straight; a hand in which four out of five cards of consecutive rank are held and in which the missing fifth card has a rank that is between the highest and lowest ranked cards that are already in hand; belly buster; gutshot straight draw; as opposed to a one-ended straight draw or an ...

~~Definition of Inside Straight Draw | PokerZone~~
An inside straight draw, or gutshot draw or belly buster draw, is a hand with four of the five cards needed for a straight, but missing one in the middle. For example, 9-x-7-6-5. An inside straight draw has four outs (four cards to fill the missing internal rank). Because straight draws including an ace only have four outs, they are also considered inside straight draws.

The inside straight draw, or gutshot straight draw as it is often referred to, is one of the toughest draws to play. Of course, it gives your hand some potential, so you don't want to give up too soon. That being said, a lot of the time the math is not on your side and you are not always drawing to the nuts, so that is important to consider.
