But that's not all-bees are responsible for up to one-third of our food supply, and the consequences of not taking action to protect them are frightening. While the media focuses on colony-collapse disorder and the threats to honey bees specifically, the real danger is much greater: all bees are at risk, whether it be from loss of habitat, pesticide use or disease, among other factors.

Why All Bees Are At Risk And What We Can

Bees: Why All...

Bees have a knack of getting into any opening, so an all-in-one suit with elasticated cuffs and a veil will provide you with the best protection. TIP : By putting the entrance of your hive a metre from a fence or hedge, the bees will fly up and away over head height – making it less likely you'll walk into their flight path and get stung.

How to keep bees - Beekeeping guide

To keep bees, you need a beehive. In the wild, bees build their own hive, usually in a
