□ What drew me to LAC+USC was the unparalleled energy - the enthusiasm of the residents and faculty, the stimulating environment of a county hospital, and the collaborative and supportive culture rooted in serving the Los Angeles community. I am reassured each day I come to work that this is the best place to be training in Internal Medicine.

USC IM Residency

LAC + USC is part of the Committee of Interns and Residents (CIR). CIR provides trainees with additional benefits such as supplemental insurance, housing stipends, research support and educational reimbursements. Please click below to learn more: [Learn more.](#)

Med+Peds at LAC+USC The Combined Internal Medicine and Pediatrics (Med+Peds) program is a four-year residency program. Our training prepares resident physicians to sit for both the Internal Medicine and Pediatrics boards. We are privileged to serve a large, diverse, urban underserved patient population.

Med+Peds Program | USC Internal Medicine + Pediatrics

The principle goal of the internal medicine residency program is to train our residents to be talented and compassionate internists and thus ensure their access to a wide range of career options. The breadth of our curriculum allows us to provide our trainees with a unique range of experiences in both ambulatory and inpatient care.

Training & Education | Department of Medicine

The Keck School of Medicine of USC's newest generation of doctors learned where they will begin the next chapter of their careers, and their lives, as residents during the much-anticipated Match Day celebrations on March 16. Nearly 160 future physicians gathered on Harry and Celesta Pappas Quad to rip open the envelopes containing details about where they will spend their upcoming residencies.

He completed an internal medicine residency at Mount Sinai in New York and a hematology and oncology fellowship at LAC/USC Norris Comprehensive Cancer Center in Los Angeles. Dr. Grussie has published on various topics, including basic immunology, liquid biopsies in solid tumors, and leukemia.

Erwin Grussie, M.D. | Burbank, CA

Graduates of the Internal Medicine Residency program have a greater than 95 percent pass rate for internal medicine boards and have their choice of the most sought-after fellowships and internal medicine jobs. Approximately 80 percent of our graduates go on to participate in a fellowship program, with a match rate greater than 98 percent.

Internal Medicine Residency | NYU Langone Health

Why LAC+USC: Simply, the mission and the people. I wanted to pursue residency at an institution/program dedicated to pushing medicine forward by actively working to aid those structurally disfranchised with regard to their right to health. I found this at LAC+USC. Coupled with a personable, supportive, and engaged resident and faculty cohort ...
