Laws of nature are of two basic forms: (1) a law is universal if it states that some conditions, so far as are known, invariably are found together with certain other conditions; and (2) a law is probabilistic if it affirms that, on the average, a stated fraction of cases displaying a given condition will display a certain other condition as well. In either case, a law may be valid even though it obtains only under special circumstances or as a convenient approximation.

Scope and Nature of Interpretation. The necessity of interpretation would arise only where the language of a statutory provision is ambiguous, not clear or where two views are possible or where the provision gives a different meaning defeating the object of the statute. If the language is clear and unambiguous, no need for interpretation would arise.

2. The primitive laws of nature may be reduced to six, namely: 1. Comparative sagacity, or reason. 2. Self-love. 3. The attraction of the sexes to each other. 4. The tenderness of parents towards their children. 5. The religious sentiment. 6. Sociability. 3.-1.

Law of nature legal definition of Law of nature

In jurisprudence, natural law can refer to the several doctrines: That just laws are immanent in nature; that is, they can be "discovered" or "found" but not "created" by such things as a bill of rights; That they can emerge by the natural process of resolving conflicts, as embodied by the evolutionary process of the common law; or

Natural law - Wikipedia

The law of nature, which is "nothing else than the participation of the eternal law in the rational creature," thus comprises those precepts that humankind is able to formulate—namely, the preservation of one's own good, the fulfillment of "those inclinations which nature has taught to all animals," and the pursuit of the knowledge of God.

This methodological turn gained momentum with the publication of Dworkin's Law's Empire (1986), arguing that not only the law, as a social practice, is a profoundly interpretative (and thus partly, but necessarily, evaluative in nature), but that any theory about the nature of law is also interpretative in a similar way, and thus, equally evaluative. Many of those who do not necessarily share Dworkin's views about the interpretative nature of legal practice, or the specifics of his ...
