League of Denial reveals how the NFL, over a period of nearly two decades, sought to cover up and deny mounting evidence of the connection between football and brain damage. Comprehensively, and for the first time, award-winning ESPN investigative reporters Mark Fainaru-Wada and Steve Fainaru tell the story of a public health crisis that emerged from the playing fields of our 21st century pastime.

League of Denial is a 2013 book, initially broadcast as a documentary film, about traumatic brain injury in the National Football League, particularly concussions and chronic traumatic encephalopathy. The documentary, entitled League of Denial: The NFL's Concussion Crisis, was produced by Frontline and broadcast on PBS. The book was written by ESPN reporters Mark Fainaru-Wada and Steve Fainaru. The book and film devote significant attention to the story of Mike Webster and his football-related b

League of Denial by Mark Fainaru-Wada and Steve Fainaru is such a great book that you don't have to be an avid football fan to appreciate it. I was blown away by the information provided on topics ranging from the first case of brain damage to be associated with playing football to the NFL's denial of the facts.

*League of Denial: The NFL, Concussions, and the Battle for ...*

The first section of League of Denial alternates between Webster's tragic post-football life and specific, serious concussions sustained by NFL players such as Merrill Hoge, Al Toon, Troy Aikman, and Steve Young during the 1990s. Widely considered one of the finest offensive linemen in NFL history, Webster was a key member of the Pittsburgh Steelers dynasty that won the team four Super Bowl titles during the 1970s.
