QUICK LOAD SERVO S3 INTRODUCTION The QUICK LOAD
SERVO III bar feed system was specifically designed for loading
short bars, but can also be used for loading shafts, axles or forged
parts. Combining high technology and user friendliness, it offers
users a surprisingly vast number of applications, while remaining
simple to use and highly reliable.

INSTRUCTION MANUAL INSTRUCTION ... - LNS North
America

The Quick Load Servo S3 T bar feeder reliably loads 1/4" to 4-3/4"
diameter bar stock in lengths from 4" to 63" (not to exceed overall
spindle length). Coupled with a fully automatic diameter adjustment
and other patented features, partial changeovers can be achieved in
15 seconds or less within the pusher range.

LNS Group » Peripherals » Bar Feeder » Quick Load Servo S3 T
The QUICK LOAD SERVO S3 T bar feed system has been
designed with a focus on maximum safety during its handling and
complies with all EC requirements. Safety covers and devices make
access to the moving parts of the bar feed system impossible. Safety
switches keep the bar feed system from operating when these
protections are open.

I use a Mori Seiki NL2500 with a LNS Quick Load Servo III. The machine was delivered last march, and is working really good. Once i crashed the subspindel (forgot to type a .) it was send to germany to overhaule it. Well last monday i prepared the machine to work overnight, i didnt used the subspindel, so the barfeeder had to push the stock ...
