Management for Engineers, published in 1996, it has become clear  
that, while the needs of undergraduate and graduate engineers were  
being met, the very similar needs of scientists and technologists were  
not being addressed. The purposes of this new edition are to bring  
to the attention of a much wider readership the fundamentals of  
management, and to

An engineering technologist is a professional trained in certain aspects of development and implementation of a respective area of technology. Engineering technology education is even more applied and less theoretical than engineering education, though in a broad sense both have a focus on practical application. Engineering technologists often assist engineers but after years of experience, they can also become engineers. Like engineers, areas where engineering technologists can work include pro
