The purpose of managerial accounting is to provide managers with information useful in planning and controlling the activities of a business. It deals with internal, rather than external information. Managerial accounting reports include budgets, performance reports, and analysis of economic alternatives such as make-or-buy manufacturing decisions.

process of identifying, measuring, analyzing, interpreting, and communicating information in pursuit of an organization's goals.

Several of the problems lie in this area and may be attributed to a lack of formal planning, controlling, directing, and decision-making expertise.
