Federal Court Management Statistics | United States Courts

Today in the United States, the need for case managers is growing. While it is difficult to find precise statistics on the total number of case managers in the US, the number of CCM (Certified Case Managers) has increased over 50% to 42,000³ and, there are over 5,200 case managers who are ACM (Accredited Case Managers) certified⁴. Case managers have never seen a demand like is currently being experienced with a growing aged population and new healthcare delivery models – and it doesn't ...

management platform—that can manage collaboration-friendly, multi-specialty client records, and has diverse capabilities in data analysis—extends a case manager's ability to manage each individual client's plan.

The Role of Case Management in Value-based Health Care

Case Management also provides forensic case management to persons with mental illness who are incarcerated in the County jail. The components of Case Management are: linking, advocacy and monitoring to all service providers and support systems so that an individual's quality of life may be maintained and improved.
