APE manual cam chain tensioners are designed to replace the automatic and hydraulic tensioners on high performance engines. The automatic tensioners can back out when the throttle is closed suddenly at high rpm. This allows the cams to go momentarily out of time, and can result in bent valves and/or serious engine damage.

USA made, genuine APE manual camchain tensioner. They cannot back off like the oem type automatic tensioners. A must for any hard ridden standard or tuned machine. Beware of cheap copies! Easy to install. They often take up more slack than a standard tensioner, so can sometimes also stop chain noise.
