Download Free Mapping Women Making Politics Feminist Perspectives On Political Geography

Mapping Women, Making Politics: Feminist Perspectives on Political Geography is an attempt to recognize the breadth and vitality of feminist contributions in this field. We hope that this volume goes some way to demonstrate the ways in which fundamental concepts within political geography are enriched—and in many ways unsettled—by feminist perspectives.

Mapping Women, Making Politics: Feminist Perspectives on ...

Mapping Women, Making Politics demonstrates the multiple ways in which gender influences political processes and the politics of space. The book begins by addressing feminism's theoretical and conceptual challenges to traditional political geography and then applies these perspectives to a range of settings and topics including nationalism, migration, development, international relations, elections, social movements, governance and the environment in the Global North and South.

An impressive collection of political geography by and for women. This volume is a much-needed addition to the field. -- Michael Brown, Professor of Geography, University of Washington Mapping Women, Making Politics is a wonderful corrective to a field that has been dominated by masculinist perspectives. It represents intellectual leadership that will not only define the field in geography, but will have an impact across the social sciences.

Feminist mapping is a way to affect social change and aligns with Actor Network Theory. Actor Network Theory (ANT), a critical social theory lens, is a process philosophy not based in cause and effect notions, but instead looks for a sociology of associations, that is, knowledge as mediated or mutually articulated in interactions between networks of actors.

feminist mapping - FemTechNet

Through a tracing of feminist thought in human geography across the 25 year period of 1993 to 2018, via the debates in *Progress in Human Geography*, what comes into view is a treatment of politics and the political that yields an alternative genealogy of political geography. Feminist work has advanced a fundamental critique of what has come to count as politics in human geography.
