Maintenance of Medical Devices and Equipment Procedure

Avensys' Repair and Maintenance division is the cornerstone upon which the business has been built. From the outset, a decision was made to employ the best engineers in the country - a decision that continues to this day. This strategy combined with regular OEM training updates and a seamless back office system means our engineers can maintain and repair all your medical equipment with minimum disruption.

Repair & Maintenance | Avensys Bio medical engineering ...

Although SMIC provides in-house maintenance and repair for a full range of sophisticated, state-of-the-art medical equipment, which includes anesthesia machines, ventilators, and dialysis units, outside OEM vendor repair and service support is sought out for specialized equipment, as required to supplement in-house capabilities; i.e., equipment that must be continuously operational in order to minimize revenue loss to the institution and for which there is little or no back-up equipment.
