On successful completion of this course, you'll have the academic and practice requirements needed to apply for second registration with the Nursing and Midwifery Council (NMC) as a mental health nurse.

Nursing Studies (Second Registration) Mental Health ...

Synopsis. This second edition provides a comprehensive overview of the practice of psychiatric and mental health nursing, supported by relevant theory, research, policy and philosophy. The book is underpinned by the concept of "the craft of caring", where the basis of good nursing practice is considered to be a combination of both art and science, and which encourages nurses to take a holistic approach to the practice of psychiatric and mental health nursing.

21 May 2020. The second round of results from a three-survey study published today highlights the ongoing concerns nurses and midwives in the UK have about COVID-19 and the risks it poses to their own physical and mental health, as well as the health of their families. A similar proportion of respondents compared to the first survey reported that training for staff redeployed to front line care was inadequate or non-existent.

Second survey of UK nurses and midwives highlights ongoing ...

Mental Health Nursing: Work with people in a way that values, respects and explores the meaning of their individual lived experiences of mental health problems, to provide person-centred and recovery-focused practice. They must be able to apply their knowledge and skills in a range of evidence-based individual and group psychological and psychosocial interventions, to carry out systematic needs assessments, develop case formulations and negotiate goals.

Mental Health Nursing BSc | Coventry University

Working in a variety of settings, including specialist and community services, and people's homes, mental health nurses provide focused health support to people of all ages. A £5,000 per year training grant is available for students along with an additional £1,000 per year grant because mental health nurses are in demand in the UK and worldwide.

Practical Nursing Series: Mental Health Nursing

All nurses have a responsibility to promote good mental health in order to prevent problems and to support patients who may have a mental illness. Mental health nurses work in a variety of settings and support and treat people who have been diagnosed with a mental illness. Just like in physical health, nurses can promote mental health by building good relationships with patients, encouraging healthy behaviours, and recognising and treating symptoms early.
