Mental Health User Narratives New  
About this book. Following extensive research in the UK, Bruce Cohen allows mental health users to tell their own stories (or 'narratives') of illness and recovery. Institutional and home treatment care is covered alongside controversial self-coping techniques such as drug-taking, spiritualism, alternative healing, sleep and watching television.

Instead, the user 'narratives' (or stories) are taken at face value, building a more rounded picture of the lives of users, and producing new perspectives on mental health and illness. Insights are gained into such areas as spiritualism, self-coping, self-recovery, alternative treatments, positive affects of illness and future life paths.
