When the detector emits different tones for different types of metals, and when the detector "eliminates" certain metals, we refer to this as the detector "discriminating" among different types of metals. Discrimination is an important feature of professional metal detectors. Discrimination allows the user to ignore trash and otherwise undesirable

Professional Metal Detector for Adults Sunpow Upgraded OT-MD02 Metal Detector uses upgraded DSP chip, 10Inch IP68 waterproof coil, a new type of handle. It has the most comprehensive functions of current metal detectors and the detection depth deeper than 20% on the market .It has extra long standby time .

~~Amazon.com : SUNPOW Professional Metal Detector for Adults ...~~

The Sunpow OT-MD02 is an entry-level metal detector. Although simplicity is at the core of its performance, it has manual ground balance and a color LCD display to help beginners get a head start on learning how to detect. It's priced within the budget range, so it's an affordable detector if you're buying for an older child or a friend.

~~Sunpow OT-MD02 Metal Detector Review - Should You Buy?~~

A metal detector transmits magnetic energy into the ground and senses distortion in the magnetic field due to the presence of a metal object. The frequency content, temporal form and amplitude of this magnetic energy can affect detection capabilities and overall performance characteristics.
