Middle Range Theories: Application to Nursing Research...

Middle-range theory, developed by Robert K. Merton, is an approach to sociological theorizing aimed at integrating theory and empirical research. It is currently the de facto dominant approach to sociological theory construction, especially in the United States. Middle-range theory starts with an empirical phenomenon and abstracts from it to create general statements that can be verified by data. This approach stands in contrast to the earlier "grand" theorizing of social theory, such as *functio*

Middle Range Theories: Application to Nursing Research and ...

Middle range theories are theories that are the least abstract set of concepts specific to nursing practice. These theories are able to reach a specific population, given place or time with the process usually beginning at a simple, single descriptor concept. (Tomey & Alligood, 2002, p. 5). Grand theories are the most abstract of all theory.
