Mikuni Motorcycle Carburetor Theory 101. Motorcycle carburetors look very complex, but with a little theory, you can tune your bike for maximum performance. All carburetors work under the basic principle of atmospheric pressure. Atmospheric pressure is a powerful force which exerts pressure on everything. It varies slightly but is generally considered to be 15 pounds per square inch (PSI) ...

Carb Mikuni BS28 Had 423 Miles, now 1050. Was running very lean. Hanging idle. Exhaust pipe is turning dark. Seafoam and some adjustment of the pilot screw fixed the hanging idle. Was detonating in almost every throttle range on acceleration. I've found very little on the web related to this bike. What little there is is heavily weighted toward,
