Moonlight can't offer that, because nVidia's "GameStream" protocol doesn't have that feature. So the only time I use Steam Link is when I play card games due to its "direct tap". For everything else, and for all non-touch devices, I use Moonlight (due to its superior performance). (Extra information) Using gamepad controllers on Android-based ...

Carried away by a moonlight shadow Lost in a riddle that Saturday night Far away on the other side. He was caught in the middle of a desperate fight And she couldn't find how to push through The trees that whisper in the evening Carried away by a moonlight shadow Sing a song of sorrow and grieving Carried away by a moonlight shadow
