MOTHER IN THE MIDDLE

In. Sybil Lockhart, a Berkeley neurobiologist, became a "mother in the middle" when she was pregnant with her second daughter and her mother was diagnosed with Alzheimer's disease. What makes Sybil's story different, and so powerful, is that she understood the neurological processes, by turns exciting and devastating, that were taking place in the brains of those she loved.

After reading Mother in the Middle and all the studies and facts they presented, I felt like a experienced mother had taken me under her wing and shared truth -- clearing up all the other arguments. I realized how much a working mom has to overcome from trying to actually make money, to the underdevelopment of children placed in day-care.
