Originally published in 1971 by Winthrop Publishers, Inc., this volume provides a discussion and analysis of the theory of natural law as it appears in contemporary political and social thought. This theory of natural law was used from the fifth century B.C. until the end of the eighteenth century to provide a universal, rational standard to determine the nature and limits of political obligation, the evaluation of competing forms of government, and the relation of law and politics to morals.

It is for this reason that libertarians must do their homework carefully when venturing into the twisted pathways of natural law theory, and an excellent place to begin is Paul Sigmund's Natural Law in Political Thought. Natural law theorists, writes Sigmund, share a common belief "in the ability of human reason to deal with moral problems." More specifically, natural law entails "the belief that there exists in nature and/or human nature a rational order which can provide ...

In the 17th-century theories, the natural law served the important function of providing a ground for legitimacy in a political theory. For Grotius the requirements of the social nature of man were the source of the binding force of international law. For Hobbes, man's drive to preserve himself made obedience to the sovereign a moral obligation.

Natural law imposes the humility of knowing that each thing's value is designed by God. Politics is primarily concerned with making laws, which is why most legislators are lawyers. One can no more get politics out of law than one can get sin out of the gospel. Law protects people from those who would oppress, persecute, and otherwise prey on them.

Natural law (the universal moral law inherent in human nature) is necessary because human beings, who are political by nature, must belong to a community, which may be restricted in size to one town or may extend over the whole earth.

natural law | Definition, Theory, & Ethics | Britannica

Aristotle notes that natural justice is a species of political justice, specifically the scheme of distributive and corrective justice that would be established under the best political community; were this to take the form of law, this could be called a natural law, though Aristotle does not discuss this and suggests in the Politics that the best regime may not rule by law at all.

Natural law - Wikipedia

The body of Cicero's political philosophy is composed of three related elements— a belief in natural law, natural equality and the state as natural to man. "Cicero's true importance in the history of political thought lies in the fact that he gave to the Stoic doctrine of natural law a statement in which it was universally known throughout Western Europe from his own day down to the nineteenth century."
