[Nissan Check Engine Soon Light](#)

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic. The light does

Read Free Nissan Check Engine Soon Light

say service engine soon, but you may not necessarily have to make any major repairs soon.

What Does the Service Engine Soon Light Mean on a Nissan ...

Under normal operation, your Nissan check engine light should come on when you insert the key in the ignition. After 5 seconds or once you start the engine, the light should turn off as long as no fault codes are present. If the check engine light stays on, the problem can be something as simple as a loose gas cap or a faulty oxygen sensor.

Troubleshooting Nissan Check Engine Light | YOUCANIC

The best way to determine why the check engine light in your Nissan came on is to stop by an authorized service center. However, if it's a steady, unblinking light, we do recommend checking the gas cap--especially if you've just filled up. A loose gas cap can cause the check engine light to turn on, as will a gas cap with a crack in it.

5 Things to Know About Your Nissan Check Engine Light in ...

Nissan cars have become more technologically advanced in recent years. ECU (Engine Control Unit) computers are now an integral part of Nissan car design. The ECU constantly monitors and governs many functions, including the electrical and safety systems of the car, and engine management. When this unit detects a problem, the SES (Service Engine Soon) light on the dashboard turns on to indicate that there's an issue that needs attention.

How to Turn Off a Check Engine Light on a Nissan | It ...

An illuminated check engine light on your Nissan can signal anything from a loose gas cap to a major repair. At Speedcraft Nissan in West Warwick, we're often asked about why it turns on and what to do about it.

tells you something is needs attention. Unfortunately, ignoring the check engine light can lead to potential danger and thousands of dollars in consequential damages.

Potential Causes to Your Nissan's Check Engine Light Being On

Nissan actually has a procedure to access the fault codes and to erase them and reset the computer. The majority of late model cars have a check engine light for the computer and a service engine soon light for required maintenance like oil changes. Nissan only uses one light --- the service engine soon light --- to take care of these functions.

How to Reset the ECU (Service Engine Soon Light) on a ...

A check engine light can indicate a broad spectrum of problems with your 2012 Nissan Juke. In some cases you need to pull over immediately to prevent damage while in others you merely need to tighten you gas cap next time you stop in order to reset the service engine soon light.

Engine Light Is On: 2011-2017 Nissan Juke - What to Do ...

If the 'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement.

Service Engine Soon Light [How to fix it?] Meaning & Causes

Another possible culprit triggering the "service engine soon" light is misfiring spark plugs. Spark plugs on older vehicles (before 1996) needed to be changed every 40,000 to 50,000 kilometers; on more modern vehicles spark plugs can go to 150,000 km before needing to be changed. Faulty spark plugs can cause your engine to misfire.
