[One Light Flash: Professional-Quality Lighting on a ...

This shoot for Rainmaker Creative had some challenging lighting issues. The conference room, where we spent about half the shoot, had overhead lights that cast an unflattering yellow hue. Also, the back part of their office where the staff worked was largely in shadow so we had to add some light to highlight the focal points and avoid using a high ISO.

Using a camera flash is an inevitable part of being a photographer, especially since photography is mainly concerned with light. But to gain more confidence in using your built-in and external flashes when taking pictures, one must first understand its many uses.. Contrary to what many beginners think, flash is not only used to brighten a nearby scene or subject.
