## Orthodontics In General Dental Practice By Gordon C Dickson

Dentists and orthodontists are doctors who specialize in oral healthcare. Doctors who study general dentistry are trained to diagnose and treat conditions of your gums, teeth, tongue, and mouth.

---

## Orthodontist Vs. Dentist: What Do They Do and How Are They ...

The results indicated that general practitioners are engaged in a wider range of orthodontic treatment modalities. The competence of the general practitioner to treat the spectrum of dental malocclusions and the ability of continuing education courses to produce "instant general-practitioner orthodontists", remains a cause for concern.

Orthodontics In General Dental Practice By Gordon C ... Orthodontic braces are the most traditional way that teeth are straightened. Generally, you will need to wear the brace for in-between 6 months and two years. During this time you will be monitored closely, and we will make appropriate adjustments to your brace to ensure a desired finish. We can treat those under 18 who fit the NHS criteria, free of charge.
