Oxford Handbook of Nephrology and Hypertension - Oxford ...

The Five-Factor Model (FFM) is arguably the predominant model of general personality structure. There is a considerable body of research supporting its construct validity and practical application. There have been a few books specifically concerning the FFM, but to date there has not yet been a text that brings together in one location all that is known about the FFM.

The Oxford Handbook of Free Will provides a guide to current scholarship on the perennial problem of free will—perhaps the most hotly and voluminously debated of all philosophical problems. While reference is made throughout to the contributions of major thinkers of the past, the emphasis is on recent research. The articles combine the work of established scholars with younger thinkers who ...

Oxford Handbook of Free Will - Oxford Handbooks

Animal studies is an interdisciplinary field that captures one of the most important topics in contemporary society: how can humans rethink and reconfigure their relationships with other animals? This “ animal question ” is the focus of The Oxford Handbook of Animal Studies. In the last few decades, animal studies has flourished, with the widespread recognition of (1) the commodification of ...

This article examines mental health policy in New York State. Mental health policy in New York State is driven by several complicated, interrelated, historically rooted components. The primary functions of the New York State Office of Mental Health (OMH) are addressed. OMH made a major commitment to funding community residences. The development of residential alternatives remains a high ...
