Painting In The Dark flips on a switch in a dark room - but only for a moment, giving just a quick glimpse at what the room looks like. But then it's flicked back off, leaving it to me to navigate through the darkness with what little light I've been entrusted. It's my own walk, my own journey alongside as I've read of his struggles and successes.

In Painting the Darkness by Robert Goddard, the wealthy Davenall family had quite a few unspeakable secrets. Many lines had been crossed and children were fathered by people that they should have never been with in the first place. A man showed up eleven years after Sir James Davenall's supposed death and claimed to be the baron himself.

Fluorescent paints and glow in the dark paint(a.k.a. Phosphorescent paint) have the same motive, i.e., to glow in the dark. But the way they glow is different from each other. Fluorescent paints only glow in UV lights(like Blacklights), so they are the best for parties, festivals, clubs, and everywhere with these lights.
