*Division of General Pediatrics and Adolescent Health, Department of Pediatrics, University of Minnesota, Minneapolis, MN 2. †University of Illinois at Chicago, Chicago, IL Cannabinoid-containing products have become increasingly ubiquitous worldwide, both through legalization of recreational marijuana and widespread use of cannabinoid derivatives in medical products.

Medical Cannabinoid Products in Children and Adolescents ...

Cannabinoids, the psychoactive compounds in marijuana, are one of the most commonly used substances in the United States. In this review, we summarize the impact of marijuana on child and adolescent health and discuss the implications of marijuana use for pediatric practice. We review the changing epidemiology of cannabis use and provide an update on medical use, routes of administration ...
