fluid or gas
safely and
reliably from
one piece of
equipment to
another. Piping
is divided into
two main
categories:

**Process Piping
Fundamentals,
Codes and
Standards**

Download Ebook Piping

Piping is an assembly of piping components used to convey, distribute, mix, separate, discharge, meter, control or snub fluid flows. Piping also includes pipe-supporting elements but

Download Ebook Piping Engineering Handbook
does not include support structures, such as building frames, bents, foundations, or any equipment excluded from Code definitions.
