The mission of political polling is to gauge the political opinion of the entire nation by asking only a small sample of likely voters. For this to work, pollsters have to ensure that the sample group accurately represents the larger population.If 50 percent of voters are female, then 50 percent of the sample group needs to be female.

YouGov told us that " the increased volume of polling has been driven by an increased number of polling companies, lower costs and lower barriers to entry to the industry, rather than demand from the media. " 222 Others supported the suggestion that the increase in digital media channels and a broader online environment had opened up the industry and made the polling market easier to enter. 223 However, the MRS, with reference to its own system of regulation and accreditation, warned us ...
