The BAC Pin Brazing technique is based primarily upon Electric-arc silver soldering using a specially designed portable Pin Brazing unit, a hollow brazing pin containing silver solder and flux. The Pin Brazing Process. The brazing process is initiated by depressing a trigger on the brazing gun. This as with most forms of electrical welding simply completes a circuit through which a DC current is passed.

Pin Brazing - bacgroup.com
Battery-powered for up to 15 brazes per electrical charge with the smallest type of brazing pin. The unit is portable and easy to transport.
