Preventing Misdiagnosis of Women: A Guide to Physical ...

Women tend to be much more misdiagnosed than men for a few different reasons. One is due to the lack of knowledge—and clinical research—about the differing symptoms men and women can experience with the same conditions and diseases. Women are also commonly misdiagnosed because their complaints are dismissed by the doctors they're seeking help from.

The Most Misdiagnosed Women's Health Issues You Need to ...

In the book *Preventing Misdiagnosis of Women* (Klonof, Landrine), the author quotes a statistic which says 41% to 83% of all people who are treated for psychiatric disorders actually have a physical disorder instead. Briefly, the writer describes Cushing's Disease, yet does not at all address the issues of focus to which we, as patients, can relate.
