Probability theory is used for decision-making and risk management throughout modern civilization. Individuals use probability daily, whether or not they know the mathematical theory in this text. If a weather forecaster says that there is a 90% chance of rain, people carry umbrellas. The [90% chance of rain] is a statement of a probability.

Risk Probability and Impact Assessment . The probability assessment involves estimating the likelihood of a risk occurring. The impact assessment estimates the effects of a risk event on a project objective. These impacts can be both positive and negative; i.e., opportunities and threats. The project objectives are numerous, e.g. the schedule, cost, quality and scope. For each identified
