Floor Standard A

used standard concrete to raise the floor levels. However, it is a time-consuming process by reason of the extended drying times of the concrete.

Concrete dries at the slow rate of 1 mm up to a thickness of 50mm per day.

Thicker levels may take even longer time to dry in a sufficient

Raising The

There may be A
restrictions in height
that may be a
qualifying factor, as
generally garages are
built of a height not
more than 8 feet. So if
you raise the floor,
you have to check the
minimum height that
would be available
after you raise the
floor.
