(PDF) C.R. Kothari Research Methodology Methods and ...

Research methods are specific procedures for collecting and analyzing data. Developing your research methods is an integral part of your research design. When planning your methods, there are two key decisions you will make. First, decide how you will collect data. Your methods depend on what type of data you need to answer your research question: Qualitative vs. quantitative: Will your data take the form of words or numbers?

Research Methods | Definitions, Types, Examples

research studies are undertaken and accomplished year after year. But in most cases very little attention is paid to an important dimension relating to research, namely, that of research methodology. The result is that much of research, particularly in social sciences, contains endless word-spinning and too many quotations.

Card sorting is a qualitative research method used to help determine the relative priority of features, categories, or pages. In a card sorting session, the participant is given small cards with a single word or short phrase on each one. They're asked to rank the cards in priority order, or group them together and label the group.
