It is a stark claim to say that science was born of Christianity, but do not reject this claim without understanding what it is about, as so many have done. This book provides the historical research and the reasoning in outline form, to be read beginning to end, browsed one chapter at a time, or referenced when presenting and defending the argument to others.

This is the claim that science was born of Christianity. In short form, Jaki claims that the culture of systematic, ongoing quantitative study of nature arose within, and only within, the theological, philosophical and psychological milieu of Christian medieval Europe, and that it arose because of that milieu.

Link: WOF 240: Science was Born of Christianity. While Catholic teaching maintains that God operates within the universe, it does not go all the way to saying that God is the universe. Rather, we say that God created the universe and holds everything in existence. The universe is not God, it is God's creation — God's handiwork.

It is in this larger “Jakian” stream that Stacy Trasancos inserted her own contribution, Science Was Born of Christianity. In chapters 1, 2, and 3, Trasancos parses elements of the book’s title—“Science,” “Was Born,” “Of Christianity,” respectively—to illuminate Fr. Jaki’s main insights about the interface between real science and true religion. In the first place, what do we mean by “Science”?

BOOK REVIEW: Science Was Born of Christianity by Stacy ...

The relation between Christianity and science is complex and cannot be simplified to either harmony or conflict, according to Lindberg. Lindberg reports that "the late medieval scholar rarely experienced the coercive power of the church and would have regarded himself as free (particularly in the natural sciences) to follow reason and observation wherever they led.

But science did not fully develop there as it did in Europe. In her metaphor, science was stillborn in these cultures. The book argues that only in Christian nations were the circumstances right for science to progress to the point it has today. Why? Because our Christian culture sets out a single creator of a rational universe.

Science Was Born of Christianity: Trasancos, Stacy ...

Very academic, but pithily brought to an understandable level, “Science Was Born of Christianity” is a fair and detailed look into the history of science among cultures and worldviews. First, I am giving this book 5 stars for the content and its ability to meet its mission, not as a comparison to other books or

I will use this framework to state in my own words the thesis of Science was Born of Christianity: The scientific enterprise was hampered for centuries by deeply rooted cultural worldviews that in various ways were contrary to the structure of the cosmos. These worldviews, while perfectly satisfactory from an everyday point of view, introduced subtle unknown unknowns, disjunctions that made it all but certain that science would remain fruitless until Christianity reached its fullest ...

Review of "Science was Born of Christianity"

WOF 240: Science was Born of Christianity. The narrative that science and Christianity are enemies is false. Not only are they not enemies but Christianity helped science develop beyond the limits imposed on it by ancient cosmologies. In this sample lesson from her Word on Fire Institute course titled "Science for Evangelists," Dr. Trasancos introduces us to the basics of science and why there is no real conflict between science and Christianity.
