With this in mind, here are 10 common community problems and 10 solutions. If you'd like information on how One Community is integrating these into ultra-sustainable communities that will function as self-sufficient and self-replicating teacher/demonstration hubs , click the related icons.

### 10 Community Problems and 10 Solutions—One Community Global

State the problem without implying a solution or blaming anyone, so that you can analyze it without any assumptions and build consensus around whatever solution you arrive at. One way is to state it in terms of a lack of a positive behavior, condition, or other factor, or the presence or size of a negative behavior, condition, or other factor.

Problem-solution essays consider the problems of a particular situation, and give solutions to those problems. They are in some ways similar to cause and effect essays, especially in terms of structure (see below). Problem-solution essays are actually a sub-type of another type of essay, which has the following four components:
