Sisters in Crime: The Rise of the New Female Criminal

The publication in 1975 of Freda Adler's book Sisters in Crime: The Rise of the New Female Criminal marked a defining moment in the history of criminological thought. For the first time, women's involvement in crime and its relationship to social, political, and economic structures received serious academic attention.

Encyclopedia of Criminological Theory

In this landmark in the study of female crime, Freda Adler overcomes a decade of resistance from traditional theorists, police chiefs, judges, and probation officers to take account of new social facts: based on several years of original research, this is a total reassessment of the scope, depth, and implications of female crime; it shows that thousands of women are stepping across the imaginary boundary line that once separated crimes into 'masculine' and 'feminine' categories.
