Open cross-country ski trails | PillerseeTal
Cross-country skiing is a form of skiing where skiers rely on their own locomotion to move across snow-covered terrain, rather than using ski lifts or other forms of assistance. Cross-country skiing is widely practiced as a sport and recreational activity; however, some still use it as a means of transportation. Variants of cross-country skiing are adapted to a range of terrain which spans unimproved, sometimes mountainous terrain to groomed courses that are specifically designed for the sport.

The 25 Best Cross Country Skis of 2020 - Adventure Digest
Start on green trails: Most cross-country ski trail systems follow standard rating designations: green for beginner, blue for intermediate and black for expert. Avoid blue or black trails at first, because you'll be more likely to fall on them, which isn't a great outcome for you, nor for the faster, more experienced skiers who use those trails and who will have to ski around you.

Beginner's Guide to Cross-Country Skiing | REI Co-op
There are 9 KM of groomed cross country ski trails and approximately 5 KM of marked snowshoe trails. When the Ski Club was created in 1990, it was called Inkameep X-Country Ski Club and was located at mileage 21 on McKinney Rd. In 1995, the trails were moved to mileage 27 to take advantage of better snow conditions.
