constipation and even soiling, are very common in children, but are not often talked about. Before you try to solve your child's difficulties, check with your GP that he/she is not constipated....

~~Helping a child who has problems going to the toilet~~

Encopresis (or faecal soiling) is one of the most frustrating difficulties of middle childhood, affecting approximately 1.5% of young school children (von Gontard, 2013). It is a debilitating condition to deal with as a parent, as it usually occurs at a stage when children are past the age of toilet training.
