Stanadyne Pump Troubleshooting and Installation

All Stanadyne DB4 and most DB2 injection pumps will have a retained drive shaft (shaft stays in the pump when pump is removed from engine). Clean the exterior of the injection pump and mounting surfaces. **IMPORTANT:** Never steam clean or pour cold water on an Injection pump while the pump is running or while it is warm.

direct injection pump.

Our Timeline - Stanadyne

The lift pump produces a positive pressure, but of more importance, a solid column of fuel at the inlet of the injection pump. The fuel then flows into the vane type transfer pump where it is pressurized from 0 to approximately 160 psi depending on pump speed.
