The key to the success of the use of bills of quantities is a clear understanding by all parties to the contract of what is included, or excluded, in the measurement. It is this that gives rise to the requirement for clearly defined standard methods of measurement.

Principles of Measurement

The Civil Engineering Standard Method of Measurement (CESMM3) is becoming increasingly used in civil engineering works, under the NEC, ICE and FIDIC forms of contract, both in the UK and overseas. It has a format designed for more effective costing and ease of computerisation, and has features that differ from other forms of measurement.
