"The key to integrating technology successfully is to convince teachers that they can do something with it that they can't do without it," says Dr. MaryFriend Shepard, coordinator of the Ph.D. Educational Technology Specialization in the Richard W. Riley College of Education and Leadership at Walden University.

Teachers Discovering Computers: Integrating Technology in ...

This report summarizes the results of a nationwide survey of teachers in grades 4 through 12 who are experienced and accomplished at integrating computers into their teaching. Of 1200 teachers who were sent the 16-page questionnaire, 608 returned completed surveys. The purpose of studying these teachers was to discover the ways in which they use computers in their classrooms, whether and how ...

Teaching with Technology: Creating Student-Centered Classrooms
Ridgefield Park, N.J. – June 23, 2015 –
Although 90 percent of teachers believe that technology in the classroom is important to student success, 60 percent of teachers feel they are inadequately prepared to use technology in classrooms, according to research released today by Samsung Electronics America and GfK. A nationwide survey of K-12 teachers revealed that while schools are taking ...
