A workplace accident is "a discrete occurrence in the course of work which leads to physical or mental harm." Accidents may cause harm to workers and witnesses, but also damage to the employer's property. A near miss, or a workplace incident that could potentially cause harm but didn't, should be taken just as seriously as a harmful accident. For instance, if a box fell from a shelf and barely missed a worker's head, you should conduct an investigation to reduce the risk of a ...
