The Green Man, and very occasionally the Green Woman, is a legendary being primarily interpreted as a symbol of rebirth, representing the cycle of new growth that occurs every spring. The Green Man is most commonly depicted in a sculpture, or other representation of a face which is made of, or completely surrounded by, leaves. The Green Man motif has many variations. Branches or vines may sprout from the mouth, nostrils, or other parts of the face, and these shoots may bear flowers or fruit. Fou

The Colorful History of Green Screen Compositing

The history of Greenland is a history of life under extreme Arctic conditions: currently, an ice sheet covers about 80 percent of the island, restricting human activity largely to the coasts.. The first humans are thought to have arrived in Greenland around 2500 BC. Their descendants apparently died out and were succeeded by several other groups migrating from continental North America.
